**Course Overview:** Redemptive History will trace the relationship between God and humankind beginning with humankind's creation and following the history of their turbulent relationship and God's extraordinary efforts to win them (us) back. In this light, we will begin to see the true power of the cross and its massive impact on our eternity. This class will accomplish this task by following HiStory from Genesis to Revelation, focusing on the creation, the covenants and promises, the prophets, the cross, and the wedding.
